

Education Setting Service Outline (LONDON/SE)

Supporting Primary, Secondary, Sixth Form and Alternative Provision settings in:

- ✓ Raising awareness of violence, vulnerability and exploitation
- ✓ Developing safeguarding practice and intervention strategies
- ✓ Improving pupil behaviour, engagement and attendance
- ✓ Assisting physical and mental wellbeing
- ✓ Embedding critical thinking and pro-social attitudes

Our work within education settings delivers early intervention work to pupils, professionals and parents/carers. We champion trained professionals who have shared experiences of the challenges, social issues or inequity children and young people face. We seek to de-glamourise, challenge the narrative and explore the realities of crime, violence and many of the societal issues that young people face today.

All of our work is aligned to the specific needs of those we work with, reflecting their local context, need, age and experiences. As well as awareness raising and encouraging young people to think critically and evaluate risk, our approach can also have wider reaching impacts on improving pupil attendance, behaviour, school engagement and improving mental and physical wellbeing.
